

Monopolar electrode (Fine type)

- Optimized advanced electrodes for very delicate and sophisticated procedures
- The best practical effects and reduced risks with less Electrosurgery output
- Minimize incision damage, Reduce healing time

F01-00

Needle electrode 0.15mm straight length 8mm

F01-45

Needle electrode 0.15mm straight length 8mm, shaft 45 ° angled

F01-HK

Hook electrode 0.15mm straight length 8mm, shaft 45 ° angled

F01-12

Needle electrode 0.15mm straight length 8mm, shaft 120 ° angled

F14- LT

Needle electrode 0.15mm straight length 8mm, shaft 90 ° angled left

F14- RT

Needle electrode 0.15mm straight length 8mm, shaft 90 ° angled right

F03-00

Wire loop electrode 0.15mm elongated 8×1.7mm

F03-45

Wire loop electrode 0.15mm elongated 8×1.7mm, shaft 45 ° angled

F04-45

Wire loop electrode 0.15mm elongated 8×1.7mm, wire 45 ° angled

F04-90

Wire loop electrode 0.15mm elongated 8×1.7mm, wire 90 ° angled

F05-00

Wire loop electrode 0.15mm elongated 8×1.7mm, wire 45 ° angled

F06-00

Wire circle electrode 0.15mm, diameter 4mm

F07-00

Wire circle electrode 0.15mm, diameter 6mm

F08-00

Wire circle electrode 0.15mm, diameter 8mm

F09-00

Wire loop electrode 0.15mm, triangular 6mm

F10-00

Wire loop electrode 0.15mm, rectangular 6mm

F11-00

Wire loop electrode 0.15mm, rhombic 8×5mm

F05-45

Wire loop electrode 0.15mm elongated 8×1.7mm, shaft 45 ° angled

F06-45

Wire circle electrode 0.15mm, diameter 4mm, shaft 45 ° angled

F07-45

Wire circle electrode 0.15mm, diameter 6mm, shaft 45 ° angled

F09-45

Wire loop electrode 0.15mm, triangular 6mm, shaft 45 ° angled

F10-45

Wire loop electrode 0.15mm, rectangular 6mm, shaft 45 ° angled

F11-45

Wire loop electrode 0.15mm, rhombic 8×5mm, shaft 45 ° angled
